

# Tools and Materials for making the Golden Mean Earrings

## Materials:

- Round wire 14 gauge in pure copper and/or sterling silver
- Round wire 19 or 20 gauge in copper and/or sterling silver

## Tools:

- Round wooden dowel. One inch in diameter
- Wire Cutters
- Round nose pliers
- Flat nose pliers
  - Plastic covers for flat nose pliers (shrink tubing)
- Felt tip pen

## Hammers:

- Flat chasing hammer or equivalent
- Stamping Hammer
- Raw hide mallet or equivalent

## Anvils:

- Flat railroad spike or equivalent. A nearly flat anvils will do fine.
- Doping tool about ½ inch in diameter or equivalent. The ball end of a hammer will do.

## Miscellaneous:

- Bending rod about 1/10 inch to 1/8 inch diameter titanium rod. Steel will work fine.
- Golden Mean Chart included in this file or download it from here.
